

ABSTRACT OF THE DISCLOSURE

Seasoning compositions, which comprise 100 parts by weight of potassium chloride, 0.2 to 5 parts by weight of a sugar alcohol, 1 to 7.5 parts by weight of monosodium glutamate, 1 to 10 parts by weight of sucrose, and 0.05 to 1 part by weight of sodium inosinate and/or sodium guanylate, are useful as table salt (sodium chloride) replacers and can be used to reduce the amount of sodium chloride, while at the same time imparting a good salty taste to food.
